

MIMBUS BUNDLES

JUMPSTART YOUR CAREER EXPLORATION WITH VIRTUAL REALITY

TURNKEY SOLUTIONS

Unlock your training with our turnkey solutions to transform your career exploration and technical training. You will be supported every step of the way as you incorporate virtual solutions into your training programs (Includes Hardware, Software and Services).

CAREER EXPLORATION WITH VR

Mimbus Discover offers VR solutions for a wide range of industries, allowing users to dive into career exploration with immersive, and hands-on experiences

MANAGE YOUR VR EQUIPMENT

Easily manage your VR headset fleet with **ArborXR**: remote configuration, data security, app updates, and device tracking.

SKILL ASSESMENT IN REAL TIME

Each solution includes a user-friendly system to track student performance in real time and monitor progress.

MASTER IMMERSIVE LEARNING

Enhance your teaching skills, and understand how to integrate VR in your training program to boost engagement, and improve student outcomes through innovative methods.

CUTTING EDGE VR HEADSET

Get access to the latest in VR technology with **VR Expert**, and benefit from their high standard services

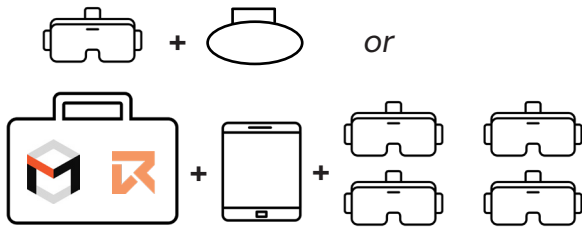

CORE BENEFITS

- ✓ Hands-on learning
- ✓ Safe, secure & controllable environment
- ✓ Assess student skill
- ✓ Uncover hidden talents
- ✓ Ready to use, all-in-one XR experience

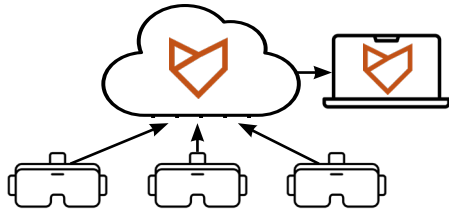

TO INQUIRE ABOUT OTHER CTE BUNDLES, CONTACT US!

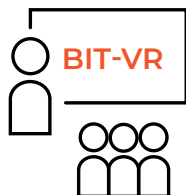

FLIGHT CASE + TABLET + HEADSETS

Receive either one **Meta Quest 3** headset plus case, or four headsets, tablet and flight case, all preconfigured by **VR Expert**, shipped to your door and ready to use as soon as you open the package.

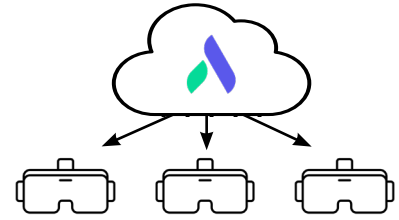

VULCAN LEARNING MANAGEMENT SYSTEM

Assign customized learning paths and monitor student growth with **Vulcan**, the most fully-featured XR LMS on the market, all from your web browser. Track student performance second-by-second, or generate easy-to-understand reporting by student or class.

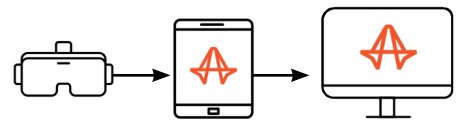

TEACHING WITH IMMERSIVE SOLUTIONS

Virtual reality is a revolution in instruction – get the training you need to make the most effective use of VR in your classroom or training center with a self-paced training program designed by PhDs. Learn how to get the most out of your VR investment and develop teaching skills that apply to any VR curricula.

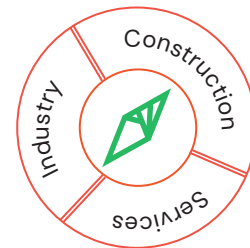

ARBORXR MOBILE DEVICE MANAGEMENT

Manage your headsets with the best-in-class XR MDM solution, **ArborXR**. Install and update software, manage users, and view advanced usage analytics, all via the cloud.

MIMBUS BRIDGE

Manage your classroom with **Mimbus Bridge**, which shows you the user's view of each student's headset. Or, share one person's view to a computer, television, or projector, turning one student's experience into a learning opportunity for the entire class.

MIMBUS DISCOVER CAREER EXPLORATION

Provide your students with the most realistic Career Exploration package available in **Mimbus Discover**. With sixteen trades across three sectors, Mimbus Discover tracks transferrable skills across five domains, from Analytical Thinking to Safety & Compliance.
